Plant and Soil

Contents of Volume 121 1990

Volume 121, No. 1

A. Smolander, *Frankia* populations in soils under different tree species – with special emphasis on soils under *Betula pendula* 1
P. E. Bacon, Effects of stubble and N fertilization management on N availability and uptake under successive rice (*Oryza sativa* L.) crops 11
J. C. Katyal and A. M. Gadalla, Fate of urea-N in floodwater. I. Relation with total N loss 21
J. C. Katyal and A. M. Gadalla, Fate of urea-N in floodwater. II. Influence of N use efficiency and grain yield response of rice 31
R. Lalande, P. C. Bigwaneza and H. Antoun, Symbiotic effectiveness of strains of *Rhizobium leguminosarum* biovar *phaseoli* isolated from soils of Rwanda 41
E. Bremer, C. van Kessel, L. Nelson, R. J. Rennie and D. A. Rennie, Selection of *Rhizobium leguminosarum* strains for lentil (*Lens culinaris*) under growth room and field conditions 47
A. J. Hall, D. J. Connor and D. M. Whitfield, Root respiration during grain filling in sunflower: The effects of water stress 57
O. Cherif-Ari, T. L. Housley and G. Ejeta, Sorghum root length density and the potential for avoiding Striga parasitism 67
W. H. Sisworo, M. M. Mitrosuhardjo, H. Rasjid and R. J. K. Myers, The relative roles of N fixation, fertilizer, crop residues and soil in supplying N in multiple cropping systems in a humid, tropical upland cropping system 73
J. H. Williams, M. Dutta and P. T. C. Nambiar, Light interception as a source of variation for nitrogen fixation in groundnut genotypes 83
K. H. M. Siddique, R. K. Belford and D. Tennant, Root : shoot ratios of old and modern, tall and semi-dwarf wheats in a mediterranean environment 89
G. C. Weiser, H. D. Skipper and A. G. Wollum II, Exclusion of inefficient *Bradyrhizobium japonicum* serogroups by soybean genotypes 99
M. V. Cheshire and C. M. Mundie, Organic matter contributed to soil by plant roots during the growth and decomposition of maize 107
B. Mandal and L. N. Mandal, Effect of phosphorus application on transformation of zinc fraction in soil and on the zinc nutrition of lowland rice 115
D. Lee, X. G. Han and C. F. Jordan, Soil phosphorus fractions, aluminum, and water retention as affected by microbial activity in an Ultisol 125
G. H. Neilsen, D. Neilsen and D. Atkinson, Top and root growth and nutrient absorption of *Prunus avium* L. at two soil pH and P levels 137

Short communications

A. J. Moffat, M. Johnston and J. S. Wright, An improved probe for sampling soil atmospheres 145
R. E. Preve and D. C. Martens, Potential effect of land-leveling on soil fertility in a Brazilian rice soil 148
R. L. Mikkelsen and H. F. Wan, The effect of selenium on sulfur uptake by barley and rice 151

Errata 155

Volume 121, No. 2

K.B. Marsh and L.A. Peterson, Gradients in Mn accumulation and changes in plant form for potato plants affected by Mn toxicity 157
P.S. Raju, R.B. Clark, J.R. Ellis and J.W. Maranville, Effects of species of VA-mycorrhizal fungi on growth and mineral uptake of sorghum at different temperatures 165
D. Simpson and M.J. Daft, Spore production and mycorrhizal development in various tropical crop hosts infected with *Glomus clarum* 171
D. Simpson and M.J. Daft, Interactions between water-stress and different mycorrhizal inocula on plant growth and mycorrhizal development in maize and sorghum 179
G.R. Safir, J.O. Siqueira and T.M. Burton, Vesicular-arbuscular mycorrhizae in a wastewater-irrigated oldfield ecosystem in Michigan 187
V. Wilhelmi and G.M. Rothe, The effect of acid rain, soil temperature and humidity on C-mineralization rates in organic soil layers under spruce 197
M. Ashraf and S. Mehmood, Effects of waterlogging on growth and some physiological parameters of four *Brassica* species 203
A. Vilariño and J. Arines, An instrumental modification of Gerdemann and Nicolson's method for extracting VAM fungal spores from soil samples 211
Ch. Morel and J.C. Fardeau, Uptake of phosphate from soils and fertilizers as affected by soil P availability and solubility of phosphorus fertilizers 217
J.W.M. Pijnenborg and T.A. Lie, Effect of lime-pelleting on the nodulation of lucerne (*Medicago sativa* L.) in an acid soil: A comparative study carried out in the field, in pots and in rhizotrons 225
H. Ohlendorf and A.M. Mårtensson, Studies on the nodulation of strain-specific resistant pea lines using single, mixed and delayed inoculation by *Rhizobium leguminosarum* 235
T.C. Paulitz, J.S. Ahmad and R. Baker, Integration of *Pythium nunn* and *Trichoderma harzianum* isolate T-95 for the biological control of Pythium damping-off of cucumber 243
G.C. Borg, P.-E. Jansson and B. Lindén, Simulated and measured nitrogen conditions in a manured and fertilised soil 251
N.A. Slaton, C.A. Beyrouty, B.R. Wells, R.J. Norman and E.E. Gbur, Root growth and distribution of two short-season rice genotypes 269

Short communications

R.E. Ingham and J.K. Detling, Effects of root-feeding nematodes on aboveground net primary production in a North American grassland 279
O.F. Glenn and K. Sivasithamparam, The effect of soil compaction on the saprophytic growth of *Rhizoctonia solani* 282
E.L. Ghisalberti, M.J. Narbey, M.M. Dewan and K. Sivasithamparam, Variability among strains of *Trichoderma harzianum* in their ability to reduce take-all and to produce pyrones 287
M.A. Mercy, G. Shivashankar and D.J. Bagyaraj, Mycorrhizal colonization in cowpea is host dependent and heritable 292
